PROJECTS

Online Food Ordering System

Web Development

It's an online web application (*Online Food Ordering System*), for particular restaurants and hotels. Customers can order food from that restaurant and all the orders were managed by their admin (hotel/restaurant manager who accepted the order or not) [** I work as a Front end Developer]

- Technology used -: HTML, CSS, Node.js, MongoDB
- Editor -: VS code editor

Personal Portfolio Aug 2021 – Nov 2021

Web Development

It's a static & simple web page that reflects me and my skill. it simply based on HTML & CSS {Front end Project}.
